

A PROVEN MONEY-MAKER FOR ALL CAULKING & SEALANT SALES!

MANUFACTURER - DIRECT

Tundra®

INSULATING Foam Filler

Traditionally, the margins available from the sale of highly competitive caulking and sealant lines have been very low. This is why TUNDRA FOAM FILLER is a most welcome add-on sale. TUNDRA FOAM FILLER offers good margins, excellent turnover potential and proven sales appeal.

Virtually every Professional Caulker and Waterproofer employs foam filler prior to sealing joints, cracks, openings etc. Foam filler fills deep voids, properly controls caulking/sealant depths and provides an airtight, waterproof, supported surface on which to seal. This saves time, money and produces a longlasting, superior sealing job.

As a leading manufacture of commercial foam filler around the world, and as a most popular "do-it-yourself" product in the U.S. and Canada, ITP is proud to offer TUNDRA FOAM FILLER to the retail market. It's a proven best seller you don't want to be without!

Available in three popular sizes and attractively packaged in four colour, "self selling" polybags, TUNDRA FOAM FILLER can be ordered as follows:

DIAMETER	LENGTH/PKG	PKGS/CTN	CRACK SIZE
3/8"	30 ft	12	1/4" (Small)
5/8"	20 ft	12	1/2" (Medium)
7/8"	15 ft	12	3/4" (Large)

So, let TUNDRA FOAM FILLER increase your sales, and profits today. You won't be disappointed by this proven money maker!
